Unlocking Veeva Vault

Maximize Performance and ROI with our NIIT Training Approach

Innovation through the science of changing human behavior

At NIIT, we know that now more than ever, the future of life sciences is driven by technology that works for those who adopt it effectively to achieve innovative performance outcomes. That's why we've spent the last thirty years perfecting the science of changing human behavior to drive innovation. So, whether it is an engagement strategy that helps you improve productivity by over 25% or achieving high performance through over 90% technology adoption, NIIT is your partner to accelerate innovation through changing behavior and mindsets.

NIIT for R&D

Our NIIT for R&D suite of comprehensive and scalable solutions helps provide measurable, high-adoption training results for the Veeva Vault Clinical Suite, Regulatory, Quality and Medical Solutions. Our team of Veeva certified experts together with our AI powered learning ecosystem and diverse product and service portfolio cover all your Veeva needs for R&D. NIIT partners with customers to create custom training programs that turn insight into action. We've trained over a million learners globally with our specialized enterprise application software (EAS) training that delivers more than 90% adoption of new systems.

A Team of Experts to Meet You Where You Are

NIIT's team of expert Veeva trainers with clinical expertise are equipped to deliver Veeva training globally on demand. With access to more than 500 trainers worldwide, NIIT can deliver Veeva training anywhere, anytime, and with a best-value and adoption guarantee. NIIT utilizes a proprietary internal certification process to ensure our trainers are Veeva solution experts prior to the start of formal training. Our proprietary methodology, creative content, and innovative delivery have resulted in NIIT trainers to be consistently rated in the 90th percentile for Veeva training. NIIT has cultivated trainers with clinical expertise who can deliver Veeva instruction globally.

NIIT medical writers, content developers and trainers have extensive backgrounds in healthcare disciplines, instructional design and delivery and understand the terminology, workflows, and goals of clinical and medical Veeva users.
