

The NIIT logo is a white circle containing the letters "NIIT" in a bold, white, sans-serif font. It is positioned in the upper right corner of the image, which shows a curved glass facade of a modern building at dusk. The glass reflects the interior lights and structures of the building, creating a layered effect.

NIIT

Managed Training Services

The world's best
companies trust NIIT to
transform learning.

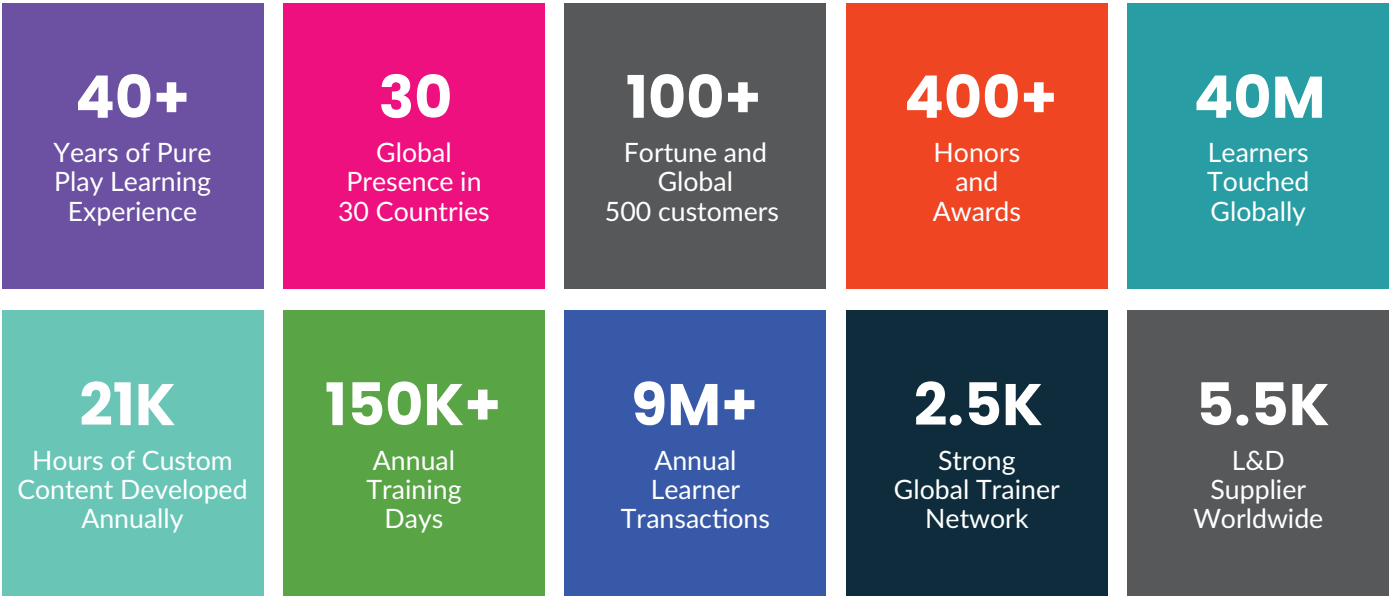

We know the world is changing and L&D is at the epicenter of this change. As we prepare for the future of work, L&D teams need to be more agile, flexible, and adaptive than they were ever before.

At NIIT, we've spent the last four decades perfecting the learning ecosystem. An ecosystem that is efficient and ready to respond to any challenge business teams may throw at it. An ecosystem that delivers high value and impact enabling people and businesses to grow.

Our comprehensive, high impact managed learning solutions weave together the best of learning theory, technology, operations, and services to enable a thriving workforce.

That's why almost 100 of the Fortune and Global 500 companies trust us to transform learning for high impact.

Curriculum Design and Custom Content

NIIT is the world’s largest and most capable providers of custom content globally. Whether is high-end immersive learning with AR, VR and 360 video or bite-sized microlearning videos, we develop learning content in every modality at scale. With our award-winning E=MC5 approach and award-winning Critical Mistake Analysis methodology developed at the Institute of Learning Sciences at Northwestern University, our content is developed on the principles of natural learning and designed to deliver tangible business impact. With over 21,000 hours of custom content delivered annually, our best practices allow us to deliver high quality content at scale against predictable timelines.

Virtual Reality	Augmented Reality	Mixed Reality
Gamification	3D Simulations	360 Interactive Video
Broadcast Video	Scenario-based Elearning	Animated Illustration
Multimedia Video	Talking Heads Video	Whiteboard Animation

Transformation Story

For a leading provider of insurance to military families, NIIT transformed the legacy instructor-led new hire and upskill programs to reduce time to proficiency and increase new hire productivity. With our Critical Mistake Analysis methodology, NIIT reduced program length by 29% which resulted in \$15 annual million savings in productivity costs with a 27% increase in proficiency.

Learning Administration

With over 40 years of experience in learning administration and management, NIIT leads the industry in custom learning administration services. Built on proven best practices, our system for learning process management is unmatched in the industry for operations, service level, and cost. Our success in transforming learning administration is no accident. Our systems bring together decades of deep-dive experience, fool-proof process automation, and scalable, flexible business models that can take on fluctuating volumes and demand. The result? A seamless, noise-free, custom operational model that aligns with your business and releases your learning teams from managing day-to-day learning administration.

Transformation Story

NIIT has transformed global internal learning administration for a leading oil and gas company with centralized, standardized learning event management and coordination services for over 200,000 employees and learners across the company's extended enterprise including gas stations. NIIT has helped the company save over \$15 million through overall operational savings as well as venue booking amounts. With over 5000 events managed annually, NIIT has increased fill rates by 5% and expanded service coverage from a limited subset of learning portfolios to comprehensive coverage with a dual -shore 120-member team across twelve hubs.

Learning Delivery

At NIIT, we develop armies of trainers, so you don't have to. In a new world where new content modalities are transforming how employees consume learning, having large in-house teams of trainers and facilitators leads to high fixed costs with low instructor utilization. You need a partner who can take on your challenges of scalability and reach while minimizing fixed costs and maximizing trainer utilization. Our worldwide network of over 2,500 instructors and a best-in-class partner network helps us provide unmatched global scale with regional flexibility in over 40 countries worldwide. We have a comprehensive global delivery model that ranges from classroom-based training to virtual instructor led training to serve over half a million learners each year.

Dedicated, Customized Trainer Teams	Comprehensive multimodal global delivery model	Agile and scalable model to manage volume fluctuations.
Maximize trainer utilization	Flexible Pay-Per-Use Model	Upskilling, cross skilling and competence management
Optimize fill rates through technology enabled solutions.	Demand planning and forecasting	Multi-shore staffing model

Transformation Story

NIIT provides end-to-end managed training services to the world's largest Open-Source provider. We design and create training content and provide training delivery and administration services over the company's technology platform which have resulted in 365% ROI on training over three years. NIIT's services include consulting, administration support and technical labs across 80 cities in seven languages for over 5.8K events and 27K learners.

Strategic Sourcing

We understand that your budget for learning is a business investment, and our sourcing and vendor management approach, processes, and technology are designed to get you the highest ROI possible on that investment. NIIT's strategic sourcing service addresses the entire lifecycle of vendor-provided training. Offering end-to-end vendor management that enables internal resources to focus on strategic learning initiatives, NIIT delivers access to best-in-class learning, scalable and regional flexibility, and rationalization of courses, vendors, participation, and delivery. With an industry-leading network of learning providers, and a full suite of support services, we help you standardize and optimize your vendor ecosystem with dramatic improvements in spend and service levels.

Addresses the entire lifecycle of vendor provided training	End to end Vendor Management to help free up resources.	Cost reduction & access to best-in-class learning providers
Full suite of support services	Scalable with regional & multi-lingual flexibility at a global scale	Neutral provider - does not own any content - only utilizes third-party providers.
Rationalize courses, vendors, participation, & delivery mode.	Unbundle content & facilitation	Eliminate scrap

Transformation Story

NIIT Strategic Sourcing Services for a large global oil and gas corporation enabled the organization to centralize and optimize the number of L&D vendors for external and third-party training by 73% while rationalizing the portfolio and improving process efficiency at reduced costs.

Learning Technology

With a plethora of technology options available, our goal is to help you leverage technology to enable your learning ecosystem to work in alignment with your business. NIIT's award-winning AI-driven learning platform collates content from multiple sources into meaningful learning pathways that can be connected to performance management systems to provide performance-based learning recommendations.

We also help organizations implement and manage complex technology integrations between LMS, LXP and multiple HCM tech platforms.

Learning resources and tools gateway	Personalized learning journeys and goals	Multiple content modalities
Gamification	Learner engagement	Collaborative technologies

Transformation Story

Our award-winning platform for a leading global insurance company has earned over 100 international awards. Supporting over 200,000 hours of online learning for sales associates across 50 countries, in 15 languages, our platform has helped sales associates across the extended enterprise improve average productivity and ticket size of business by 20%. Moreover, the high level of engagement and performance improvement enabled by the platform has resulted in 10% higher retention in an industry with high attrition rates.

“

The vendor I want to point out here is NIIT, a company we've partnered with in our Adaptive Learning research and content development. NIIT is a highly expert team of 2600+ people with 34 global design, service, and delivery centers around the world. While they don't buy up learning tech companies, they have grown at a profitable rate for more than 30 years. NIIT's clients include many of the world's largest companies. NIIT's independence from technology vendors gives them some advantages. They work with any and all L&D technologies, and they are also experts in VR, micro-learning, adaptive learning, and learning in the flow of work. And this is how complex this has become: today companies want capability academies, skills taxonomies, virtual reality, and all sorts of micro-learning, credentialing, and industry-specific content.

What Our Customers Say

WE LISTEN

"Listening to customers - That's NIIT's DNA. You all are very customer focused and you should be very proud of that. You really care about understanding what we want and work hard to fulfill our expectations."

WE RESPOND

"Love the governance. Weekly tactical meetings, bi-weekly / monthly and quarterly meetings are very useful. NIIT is VERY responsive - they've never said no to anything we've asked for and always shown willingness to explore solutions and have always found them for us."

WE CONTINUOUSLY IMPROVE AND INNOVATE

"The Customer Experience Platform (CXP) is a HUGE help. I can now do my meetings with my bosses easily- in the last meeting I just opened things in the CXP and showed them real-time info. The day-to-day data for my team is also fantastic. The customization of CXP was great and the team offered lots of suggestions. The transparency is great and it's much easier to track and measure KPIs. NIIT is always eager to improve."

RANKED #1 IN INNOVATION AND DEAL SIZE

By our customers in the 2022 HRO Today Baker's Dozen Customer Satisfaction Ratings.

NIIT has an extremely strong and robust governance process which includes periodic touchpoints, real-time dashboards and reporting through the Customer Experience Platform (CXP), best-in-class processes for project management, risk management, and change management.
