AWARD-WINNING CAPABILITIES FOR IT TRAINING

NIIT

A comprehensive one-stop-shop for all your digital and IT training needs

Deep experience and expertise from 40 years of IT training experience.

Hands-on business-aligned skills designed for the modern workforce.

NIIT's comprehensive digital and IT training services take the cost and chaos out of sourcing and managing multiple digital and IT training vendors, giving your learners a consistent learning experience and enhanced choices across the enterprise for every skill, every time.

Learning Paths customized for your job roles

Our programs are not just mapped to generic skills but have role-based learning paths customized for your job roles. From competency development programs to accelerated learning programs, we meet you where you are.

Focus on mastery, not just completion

Our programs focus on mastery and learners are required to create a viable working product. Our flexible programs are available in multiple modalities including ILT, VILT, self-paced, and blended learning solutions.

Holistic skills to prepare your workforce

Holistic skills needed by a modern technology professional are an integral part of our curriculum. With awareness and Expert Sessions built into the curriculum, our assessments and evaluations are designed for all round success.

Curriculum designed with a growth mindset

We believe in a growth mindset and 80% of our learning occurs in a practice-based environment with hands-on Cloud labs. We believe that this practice - based approach that allows learners to safely fail and make mistakes is vital to learning.
